DETAILED ACTION

The following action is in response to the amendment received February 1, 2006.

Claims 3, 5, 7, 9, 12, 14, 17, 19, 21, 23, and 25-41 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on October 6, 2005.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 2, 4, 6, 8, 16, 18, 20, 22, 43, and 44 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. These claims now recite that the proximal gear has "an inner radii that is smaller than the inner radii of the outer gear." This does not appear to agree with the disclosure since the elected embodiment does not appear to show this feature. In Fig. 3, for example, the inner radii of proximal gear 89A is not smaller than the inner radii of outer gear 93A as shown.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 4, 6, 8, 10, 11, 13, 15, 16, 18, 20, 22, 24, 42, 43, and 44 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 is seen as inaccurate in reciting that the proximal gear has "an inner radii that is smaller than the inner radii of the outer gear." As disclosed, the inner radii of proximal gear 89A is not smaller than the inner radii of outer gear 93A in the instant invention. Additionally, claims 10-13, 15, 24, and 42 depend from a canceled claim, claim 1; and, therefore, the scope of the claims cannot be determined.

Response to Amendment

The amendment filed February 1, 2006 overcomes the previous rejection under 35 USC 112, second paragraph, by eliminating the reference to planetary gear and planetary carrier. Accordingly, that rejection is withdrawn. New rejections based on 35 USC 112 are necessitated by the amendment, however.

The claims, as presently worded, are not met by the art previously applied. Accordingly, the rejections based on 35 USC 102 (b) and (e) and based on 35 USC 103(a) are withdrawn.

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
